Question & Answer

1st

Do we need to bring the Chromebooks in every day?

No. There will be a timetable or you will be notified for which lessons you will need the Chromebook. We will look at experimenting with 'Chromebook days'.

2nd

Where will we keep the Chromebooks at school?

We are in the process of ordering purpose built lockers for chromebooks/laptops, many of these will also have charging points. The Chromebook can be kept safely during break and lunchtime.

3rd

Can I use my own personal Google account on the Chromebook?

No. You will only have access to HWB. The device is controlled and administered centrally by Welsh Government. The main reason for this is to ensure greater safety on line. Some websites may be blocked, and you will not be able to download apps. Please remember that the device is intended for school work only.

4th

I have a laptop at home already. Do I have to take the Chromebook home or can I leave it at school?

There will be a locker for you at school, but please remember to charge the Chromebook to use it in lessons. You may possibly need to take it home to charge it over-night.

5th

I don't have wifi at home - will the Chromebook still work?

The Chromebooks are designed to be web based devices. If you do not have access to wifi then please contact us so that we can try to obtain wifi dongles for you.

6th

What happens if the Chromebook breaks or is lost?

Everyone has signed an agreement, and naturally we expect everyone to look after their device. We will consider each case individually before deciding on the next steps.

What if I leave YUB or move to another school?

YUB is the owner of the device and it is being loaned to you whilst you are a pupil here at YUB. When you leave YUB, you will be expected to return the device in an acceptable condition.

Only year 7 have received a personal Chromebook. You are allowed share it, and they will be able to log on to HWB just the same. However, it's YOU that has priority to use it. We will look at this rollout before considering to roll out to other years.
