Diodydd Egni

Yn dilyn cyfarfodydd gyda'r cyngor ysgol cyn gwyliau'r haf, roedd y cyngor yn dymuno i'r ysgol ganolbwytio ar 3 maes lles. Un ohonynt oedd addysgu disgylion am ddiodydd egni.

NI CHANIATEIR DIODYDD EGNI YN YR YSGOL.

Mae diodydd egni yn cynnwys lefelau uchel o gaffîn a siwgr (y rhai "non-diet"), a ellir arwain at broblemau iechyd, sy'n cynnwys:

* teimlo'n chwydlyd, poen bol a dolur rhydd

* panic attacks, teimlad bod eich calon yn curo'n gyflym

* cur pen

* methu canolbwytio

Energy Drinks

Following a number of school council meetings before the Summer break, the council wished that the school would focus on 3 aspects of welfare, one of which was energy drinks. ENERGY DRINKS ARE NOT ALLOWED AT SCHOOL.

Energy drinks contain high levels of caffeine and sugar (non-diet brands), which can lead to health problems, including:

- * Feeling sick, stomach pains and diarrhoea
- * Panic attacks, increased heart rates
- * Headaches
- * Lack of concentration
